

Penny Childrey

Ridgely, TN

Our county is the poorest county in Tennessee and the eleventh poorest county in the nation. Paying for the use of internet is not feasible for our school system. By allowing our students free access to the internet, more opportunities are provided through the numerous sites that are available. In addition, sites such as proteacher, teacherspayteachers, jessicameachum, internet4classrooms, and dibels are just a few of the sites that I use on a regular basis.

Please continue to support our schools by providing this service.
